Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I'm not so concerned about free fares for under 25's - I think they should pay but students should be able to pay a child's fare. Mainly though, I'm a supporter for those with disabilities to be able to travel for free. Life is hard enough for them to get around. My mother is in a wheelchair, so I know. I also think those with hidden disabilities should be able to travel for free e.g. intellectual disabilities, autism, especially if they cannot drive. I suppose they would get free fares because they would likely have a community services card.

Is borrowing and repaying through general rates the right approach for this regionally significant event?
