15– 24 years old

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Although more expensive for the council, this will likely create the greatest increase of usage of busses in my opinion, which I assume is the aim.

Any other comments on bus fares?

It would be interesting to see if it would be possible to reduce the fare during peak time if that would increase usage

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Bus subsidies, anything else that would help encourage reduced emissions. I have not done enough research.

Where did you hear about the consultation?

Word of mouth
