Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I would like buses to be free for everyone, and this is the closest option to that.

Any other comments on bus fares?

Young people and students will benefit most from free fares, but making it free for all adults would create a much bigger incentive to use the bus. Especially because middle aged people are likely to be the biggest car users.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference
