No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Currently to hold a part time job I'm spending between \$30-40 in bus fares to and from work, which is a huge cost for every week. It costs an average of the same as petrol would cost if I were driving myself (my flatmate's spend about the same amount on gas money weekly). Transport should be available to a larger majority of people, and also that if public transport were cheaper then more people would opt for bussing, ultimately saving on road congestion, traffic times, and emissions.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference
