crowd funding

No further housing to be built in known flood zones

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Exactly where would the money be kept and would it be kept solely for this purpose? How would it be used? It's a real problem but is this really a levy for future disasters? I would want to know ALOT more before supporting something like this. It's too vague and fluffy and politically correct.
