No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I selected this option because I think the flat rate decreases in bus fare would make travel more accessible thereby increasing the ease of commute by doing this people can get to jobs easier with less stress and reach a larger array of Christchurch businesses in theory that would help out economy

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Taxes, increase of people boarding buses and retreat use of bus system would increase profit in the long run

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I have no word on this subject

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Don't know
