Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I believe this is the best option as it makes it affordable while not costing huge amounts for ratepayers, it upholds a high level of buses while being more affordable than it is now.

Any other comments on bus fares?

This option would support these of the chirstchurch youth action plan: 1.1 TRAFFIC AND ROADING Traffic congestion in the city delaying buses in the city centre. More bus services are available within Christchurch to travel from suburb to suburb directly. 1.2 PUBLIC TRANSPORT Making the public bus service more reliable. Christchurch becoming better connected to Greater Christchurch. More evening transport available. Would make public transport affordable. 1.3 BUSES Removing the negative bussing stereotype. Christchurch Metro cards are easily accessible and available. 1.5 OTHER Young people are being heard in decision-making regarding transport and the bus interchange.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Yes
