Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Can recover some of the costs and is not much for people to pay.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Reduce the salaries of ECAN and local council representatives. Reduce unnecessary spending by ECAN and councils. Use the money saved to help pay for recovery or to at least reduce any rates increase.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Reduce the salaries of ECAN and local council representatives. Reduce unnecessary spending by ECAN and councils. Use the money saved to help pay for recovery or to at least reduce any rates increase.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Cost of living is already skyrocketing - surely ECAN and central government can find other ways to fund this instead of the same old routine of putting the costs on everyday New Zealanders. One way would be to reduce the salaries of ECAN representatives, local council representatives and Government representatives. Reduce the number of bureaucrats at all levels. Use the money saved to help pay for this or to at least reduce any rates increase.

Where did you hear about the consultation?
