Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

it will make public transport higher quality and more frequent for everyone, creating a more vibrant city, and a more affordable commute for those who need it!

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

A general rate is good, but also, as these things are partly caused by the climate crisis, we should have petrol and other carbon taxes at a local level

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Wetland restoration, biodiversity, more renewable energy, better public transit, restoration of waterways

Any other comments on future funding for responding to climate change?

Follow the science and do what is necessary, not just what's convenient

Where did you hear about the consultation?

Word of mouth
