0–14 years old

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I picked option 2 because the bus fares will be lower and cheaper for students and adults so it'll get people to go on the bus more. That will result in helping with climate change because more people will go on public transport.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know
