Which age category are you in?

0–14 years old

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Because some people don't use the buses and they shouldn't be charged through rates if they aren't even using the bus. The bus fare is cheaper than petrol so people will use the bus but there should still be a charge.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

From road tax. People who use the roads can pay.

I don't have a preference
