Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Bethany

Last name

Millar

Email address

Suburb

Ilam, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Students are currently dealing with the high costs of living and gas prices causing many to have to take those into account for their university plans. By making fare free for them it would increase their mobility around the city and reduce the stressors of paying in transport to get to uni. For total mobility and community services card holders this is a similar issue but as these people are often at a disadvantage when it comes to money and transport issues by allowing this free transport this creates a new space that they can live in.

Any other comments on bus fares?

Free fares for students and mobility and community services should be in each of these options with change in \$2 adult fare and 1.20 child fare aswell.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

There should be recovery funds put aside for large scale issues regardless with intensity of storm strength and duration, it's becoming more and more likely that these 1 in 200 year flood events will reoccur

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
