Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I believe option two is the most equitable fee structure. Many lower income individuals are not under 25, are not students, and are not Total Mobility or Community Services card holders. The impact of a lower standard fare allows more people to access public transport. This could also encourage higher paid earners to take the bus rather than add to the congestion on the roads of Christchurch, and also means those working in the central city will save money by not using paid parking.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

No

Where did you hear about the consultation?
