Are you submitting on behalf of an organisation?*

☐ Yes, I'm submitting on behalf of an organisation

☒ No, I'm submitting as an individual

If yes, which organisation are you submitting on behalf of?*

24/3/2022

Which age category are you in?

☐ 0-14

☐ 15-24

☐ 25-39

☐ 40-64

☒ 65+

☐ Prefer not to say

By providing these details you help us understand who we are hearing from.

Topic One: Changing the bus fare structure

We're proposing a two-year trial of a new bus fare structure with either free or reduced fares for some bus users.

Which bus fare structure option would you like to see trialled?

☐ Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

☒ Option 2: \$2 flat fare for adults and \$1.20 for children and tertiary students across bus zones 1, 2 and 3

☐ Option 3: Tertiary student concession

☐ I don't have a preference

Tell us more about why you support this bus fare option

Any other comments on bus fares?

Not relevant to Ashburton District

Topic Two: Flood recovery and protection

We are responsible for flood recovery and protection work across Canterbury/Waitaha. This work is funded mostly through rates from residents in 'river rating districts'. We are seeking your feedback on two proposals.

Recovery from the May 2021 flooding

We're proposing to borrow money to pay for our share of the flood protection work to recover from the regionally significant May 2021 flood.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

☐ Yes ☒ No ☐ Don't know

"regionally significant" should be defined

How else might we pay for our share of this work?

"amount residents pay better reflects the benefits receive"

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

national organisations, eg "SH1", should pay for the benefits they receive.

Reviewing flood protection costs in Ashburton

We're proposing to change how the cost of flood protection is distributed across the Ashburton River/Hakatere rating district, to ensure the amount residents pay better reflects the benefits they receive.

Which option for distribution of rates in Ashburton River rating district do you support?

- ☒ Option 1 (preferred): Redistribute rates in the Ashburton River rating district
- ☐ Option 2: Status quo – Keep the current distribution of rates in the Ashburton River rating district.
- ☐ I don't have a preference

- ① Ashburton East is a 1 in 500 year flood zone. Any other comments on flood protection in Ashburton? Need to explain why Ashburton town + Hangerhead have heavy increases
- ② Representation on Ashburton River Rating District Committee will have to be changed to a population basis. Previous agreement, 1995, was based on wealth representation

Topic Three: Future funding for responding to climate change

We're proposing a future levy to fund action in response to climate change. This would not impact rates in the 2022/23 year.

Would you support a levy to accelerate action in response to climate change?

☐ Yes ☒ No ☐ Don't know

What current or future projects or activities would you like to see funded by such a levy?

NIL.

Any other comments on future funding for responding to climate change?

Funding for climate change should be based on fact and science; not crystal ball gazing

Any other comments on Environment Canterbury's draft Annual Plan or other matters?
