Do you wish to speak to your submission at a Council hearing?  No  Which bus fare structure option would you like to see trialled?  Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders  Tell us more about why you support the selected bus fare option.  As someone who grew up with a disabled father it is important to me that those who require extra help are given more opportunities to be as independent as possible. Although bus fare is relatively affordable already, we have many options to make this possible for people who may rely on public transport more than most people who are of age and able bodied.  Is borrowing and repaying through general rates the right approach for this regionally significant event?  Yes  Which option for distribution of rates in Ashburton River rating district do you support?  I don't have a preference
