15– 24 years old

No

---

**Which bus fare structure option would you like to see trialled?**

I don't have a preference

---

**Tell us more about why you support the selected bus fare option.**

As a university student, a deduction in cost for travel is necessary as travel costs to university and the total living costs is so high. If the bus rates as described above comes into effect, I would be more inclined to use the bus system more. Furthermore, this could be a way to encourage the wider community to start using public transport to decrease the emission of harmful chemicals from the use of cars.
