Lyttelton, Lyttelton

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Any other comments on bus fares?

We need a solution for the many people that would like to bike from Lyttelton to the city without having to ride over the bridge path. Can the Lyttelton buses allow multiple bikes on buses (inside and out) just to get through the tunnel. Ideally this short piggy back through the tunnel should also be free to encourage cyclists!

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

I would support levies for specific types of action, but this must be specific so I can see exactly what I am contributing towards. I would not support levies for a general, non specific climate change budget.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?
