Lyttelton, Lyttelton

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Although option one includes the greatest rate increase, it also results in the greatest number of bus users and the greatest reduction in emissions.

Any other comments on bus fares?

I understand that it is proposed that enclosed bike lockers will be installed near the Christchurch Gondola for people travelling to or from Lyttelton Harbour Basin. I fully support this (long overdue) proposal. Associated with this, and to encourage greater use of these facilities, I would also like Ecan to consider providing a free service for people traveling between Lyttelton and the Gondola. Currently, anyone undertaking this journey must pay the same as someone traveling all the way to or from Northlands which seems unfair and will not encourage use of the bike lockers. As it is not possible to bike through the tunnel, it is a major barrier to the use of bicycles as a means of transport for people traveling to and from Lyttelton.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Greater promotion of alternatives to private motor vehicles such as public transport, walking, cycling and carpooling.
