**Subject:** Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

**First name**

fay

---

**Last name**

Brorens

---

**Email address**

---

**Suburb**

Dallington, Christchurch

---

**Phone number**

---

**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

40-64 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

---

**Tell us more about why you support the selected bus fare option.**

from the options this seems the most fair and forward thinking. We clearly need to have more than students traveling by bus however I think this option supports people with the most restricted financial choices. I would really like us to move to free public transport and to trial on demand transport - like the airport shuttle, maybe for a sliding scale. The vehicle could be a low emission one.

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**How else might we pay for our share of this work?**

this of course is the pickle. And it highlights that if we do not have significant reserves we are always going to be "playing" catch up.

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

Just as some say "I don't use the pool/library others may say I don't use the bridge. Funding ? some from Government. Some local. And we don't want to be so deep in debt that we have to push repayments into the far future, as we know there is more coming and overtime fossil fuels will become much more expensive = projects cost more.

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

I don't have a preference

---

**Would you support a levy to accelerate action in response to climate change?**

Yes

---

**What current or future projects or activities would you like to see funded by such a levy?**

information for business and communities, plans for decarbonisation -woodlots /biofuel? the infrastructure to support decarbonisation, transport such as cycles and mini cars for the use of one or 3? people, transport such as shuttles, transport such as light rail, financial reserves for repair and relocation of infrastructure as required.

---

**Any other comments on future funding for responding to climate change?**

pressure Government to give return fees taken from those who produce green house gas.

---

**Any other comments on Environment Canterbury's draft Annual Plan or other matters?**

Thank you

---

**If you would like to give feedback via video, add a link to YouTube clip or Dropbox file below**

no

---

**Where did you hear about the consultation?**

Word of mouth

---
