Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

65+ years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Public transportation needs all the help & incentives it can get and getting younger people to consistently use it gives it a chance of building & keeping a passenger base.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

I think regionally significant events, if seriously big, are beyond the regional council rates scope. There needs to be national support.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Something @ a national level - not limited to a city or a region.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Faster transition to real & sustainable renewables; big improvements in public transportation & a shift away from fossil fuel vehicles; reduction in intensive farming & dairying and shift to regenerative agriculture. New Zealand has spent the last 3 or 4 decades destroying its natural treasures - specifically our fresh water.

Where did you hear about the consultation?
