Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

This way, me and all my flatmates can save money on transport. We are a flat of students and young professionals. Owning a car is ridiculously expensive, but bussing at the moment doesn't seem like it would do much better. This option would allow for us all to get to Uni and our desired destinations at a lower costs to our already sad looking bank accounts, as well as the environment.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

I am not educated enough on this area sorry.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I am not educated enough on this area sorry.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Definitely supporting free/cheap public transport which is (preferably) electric based, or emits less toxic gas.

Where did you hear about the consultation?
