No
Which bus fare structure option would you like to see trialled?
Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3
Tell us more about why you support the selected bus fare option.
This is most important as it does not disadvantage anyone in society. For those that cannot afford to live in the city, they have the same rate as those that have a short bus ride. Despite age, gender or ethnicity no one has different prices with the flat rate. Equality for all

Were the fares to be free for under 25s, it should be a flat fare for everyone else

Don't know
How else might we pay for our share of this work?
Increase rates in areas of damage.
How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?
Govt funded, invest properly and build bridges that wont get affected.
