Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I support option 1 because of the climate benefits , and the benefits to the culture/structure of our city. Christchurch is currently heavily reliant on cars for transport. Free bus fares for target groups would greatly decrease reliance on cars, helping to create a more climate-friendly, connected, healthier, community. I hope that free bus fares for target groups will act as 'spring-board' for future shifts in transport habits in our city. For people's habits to shift, we first need to provide a reason for people to change their habits, which I believe this option will provide.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Would you support a levy to accelerate action in response to climate change?

Yes
