Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because it makes it available for people that otherwise would not be able to access public transport. It creates a more equitable Christchurch as a result. Furthermore it would help the environment, currently many students use cars for transport however do not consider public transport as cars are cheaper. But by implementing this option, people will use more public transport and contribute less to emissions. Lastly it would remove stigma around public transport as people tend not to use it sometimes because of what it seems like. But making it free will increase the numbers and make it more normal

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes
