No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I actually want to pay for free bus transport for EVERYONE but this wasn't an option so I picked that.

Any other comments on bus fares?

If you have free fares for under 25s and CSC/Mobility customers you aren't normalising the bus for everyone, you're making it a back up option if you don't have a car. It's not ambitious enough.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

General government funding.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Yes
