No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

It makes sense, helps families, and for those who are running low-income jobs either during school years or the such it'll help take a brunt off of them.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

A carbon tax and a petrol tax could be rather helpful. As well as more taxes to rich corporations, to have them help shoulder the burden.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Central government, borrowing a bit of money from everyone, tax the rich.

More focus on clean energy, solar power, more turbines, electric cars, trying to lessen our carbon footprint.
