Email address

Suburb

Ilam, Christchurch

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I support option 1 because the reduced fares make buses more accessible to a wider range of groups and encourage sustainability by reducing incentives to drive cars.

Any other comments on bus fares?

In the long-term, option one should be extended to everyone to make public transport free.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Education in schools, subsidised bus fares and an overhaul of the current recycling/waste system to make it more sustainable (i.e. allow home compostable packaging to be processed in Christchurch's waste plants).

Any other comments on future funding for responding to climate change?

Consult tangata whenua more widely and incorporate indigenous knowledge into Canterbury's climate change response.

Where did you hear about the consultation?
