Which age category are you in?

25-39 years old

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I have 3 children who regularly use public transport to get to and from school, which is a significant entry of my budget. By introducing fare free transport, my budget can be reworked and some of the financial pressure will be relieved. This is positive considering the increase in the cost of living. I feel this financial pressure release will be felt by others also, and may even encourage greater school attendance as children will be able to get to school even when there is no money for transport.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes
