Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I personally would use the bus to get through the Lyttleton tunnel regularly and bike to the city instead of using my car. I have a daughter attending Hagley who uses the bus daily and as a solo parent this gets very costly just to get to school

Any other comments on bus fares?

Option two is my next choice

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

I'm not sure but rates are too high for some people already

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

?

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Climate change is not real it is a natural phenomenon

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Stop wasting money on this natural cycle
