Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Beatrice

Last name

Cheer

Email address

Suburb

Cashmere, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I believe that beating the 'stigma' around public transport will not be helped by making some fares free. There is a perception of value related to charging a price.

Any other comments on bus fares?

Want a new result? Then don't keep doing the same old thing! How about dismantling public transport as it is and replace with: -Light rail -Fleets of flag-me-down mini buses that are electric and can carry a couple of bikes. -More comfortable bus shelters -Get into the business of electric car sharing

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Taxes and rates

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Because flood events will become commonplace due to climate change, funds need to come primarily from Government via increased tax rate. Accompanied by campaigns explaining to residents that their property, workplace, lifestyle and access to all of these things is at risk and needs to be protected.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

Because flood events will become commonplace due to climate change, funds need to come primarily from Government via increased tax rate. Accompanied by campaigns explaining to residents that their property, workplace, lifestyle and access to all of these things is at risk and needs to be protected.

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

Because flood events will become commonplace due to climate change, funds need to come primarily from Government via increased tax rate. Accompanied by campaigns explaining to residents that their property, workplace, lifestyle and access to all of these things is at risk and needs to be protected.

Where did you hear about the consultation?
