Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

No Answer

Any other comments on bus fares?

My preferred fare structure would be option 1 plus a flat fare across all zones for adults.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

In principle I support a climate change levy. I note in your consultation document you use 'encouraging people to walk, bike...' as an example of where the levy could be used. Territorial Authorities (TA) are already investing in this and other areas where a climate levy could be used. I would encourage conversations with TAs and other strategic partners for potential partnerships and ensuring there is no duplication of work.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Please do not reduce the funding to any biodiversity projects, this includes Me Uru Rākau.

Where did you hear about the consultation?
