---

**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

15– 24 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

---

**Tell us more about why you support the selected bus fare option.**

Should encourage greater use of public transport by students/under 25s; may encourage those who drive to bus, even if the journey is somewhat longer. Will significantly reduce financial pressure on those with a commute that relies on public transport.

---

**Would you support a levy to accelerate action in response to climate change?**

Yes

---

**What current or future projects or activities would you like to see funded by such a levy?**

Sustainable/low-emissions transport (public transport, cycleways, possibly [intercity] train services if financially viable) Projects to improve resilience to climate change, but only if they will last for the long term/not have high costs over its lifetime; i.e. projects to solve problems that would not be better solved by re-zoning and that are not only an interim measure.
