Subject: Submission on draft Annual Plan 2022/23

Gregor80 just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Gregor

Last name

Morgan

Email address

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I would prefer free public Transport for all. I would like to see a repeat of the "on call bus services for late night times across Christchurch City routes.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

When will relocation of those areas threatened by climate change begin. There is a crisis acknowledged but little leadership being expressed to the wider public!!!!

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

Tell the truth, help us prepare for the future

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

My problem is that a levy will be an uneven load on a significant number of residents. This is not a just way to approach the Future.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Again when is ECAN going to spell out just how difficult and major our future experience is going to be? The shift in our personal circumstances will be immense and we need to be made aware of the facts as early as possible. All those with leadership responsibilities have a share in informing and assisting us to prepare and hopefully survive in our future, At my age I will probably survive but at our present rate of preparation my grand children face a much bleaker outlook. Tell the truth about our future. It may be possible to change. For example Ravensdown has just decided to stop importing Phosphate rock from Western Sahara. One day soon Kiwi Rail will stop carting Indonesian Coal for Fonterra to dry milk.

Where did you hear about the consultation?
