Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because it affects lower income individuals and households the most. I'm hopeful that the savings will convince some of these people that they don't need to use cars and they can use the bus. I'm 25 this year so this change won't affect me but on my income I still think the bus is affordable (for higher income earners). I'm a rate payer now and I'm not worried about rates going up because of this change. I am very supportive of cycling and bus use.

Any other comments on bus fares?

No Answer

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Helping people reduce car use, either by biking or using the bus. I'm not sure if ecan has anything to do with waste and recycling but also education on those things. Community gardens are awesome!

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

I only know about the bus fares part of the plan.
