Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

when I was attending school in central Christchurch we had the shuttle which was free within the 4 avenues, this was a really useful tool to travel. Taught me a lot of independence, alert to my surroundings etc, the price of bus fares these days are a joke! Good luck to low income earners affording bus fares these days! And by the looks of those buses at the depot on ruru road, they're all electric! Where's all the profit going

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Rates! The roads are and get patch repairs, the council don't bother getting off their arses for complaints, so where's the money going?! Let me guess, council staff wages for sitting on their lazy arses!

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

That's what rates are for! A percentage should be put aside for events like this. Any excuse to take more money! Cut the staff wages for sitting on their all day and might find something gets done, to much money paying for people who do nothing!

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

No

Where did you hear about the consultation?
