Dear Ian

**RC215276 Land Use Consent Application - Woodstock Quarries Ltd**

Thank you for your letter of 15 June 2021 with the requests for further information under Section 92 of the Resource Management Act 1991.

We have pleasure in enclosing the responses to the request. The response is structured in the following manner:

- A table with the request for information in the left hand column and our response in the right hand column.
- An updated Appendix 10A Proposed Conditions of Consent Issue 2

As you are aware Environment Canterbury also issued a request for further information, and we have responded to these already. The response to Environment Canterbury included a series of attachments which are detailed on the attached schedule. These attachments are referenced in the response to you.

We have requested from Nick Reuther an initial priority review targeting whether notification be required, and advised to myself, within 7 working days of submission which is Friday 4 March 2022. We ask WDC to also conduct their review process to the same timeline and communicate with Nick regarding WDC's opinions on notification.

Nick has advised myself that he will communicate to me any thoughts on the level of notification, if any, before any action is taken by Environment Canterbury. This is to allow WQL time to obtain any further approvals, or undertake consultation with potentially affected parties, if these are required, or considered to be of assistance to the Application.

There may be some responses that require further discussion, or clarification, with the Woodstock Quarries consultant team. If this is the case, we would appreciate being given the opportunity to meet with you, and your advisors, either in person or on Teams / Zoom to resolve these as quickly as possible.

We look forward to hearing back from you.

Yours faithfully

**Woodstock Quarries Ltd**
