Meeting ID: 892 4550 8279

Passcode: 2626

1. Introductions

- Each person introduces themselves (go around the room and online)

2. Purpose

The purpose of this workshop is to seek to better understand Te Rūnanga o Waihao's aspirations for the Waihao Wainono catchment, in particular, but also across the zone, and to explore how the Lower Waitaki South Coastal Canterbury Water Zone Committee (LWSCCZC) and Waihao Wainono Catchment Community Group might work to support those aspirations.

This is an opportunity to share ideas and explore possibilities for aligning work towards common outcomes. For example the Zone Committee's action plan has objectives that include *supporting mahinga kai projects in the zone and improving water quality and enhancing immediate environs of wainono Langood and the Waihao River and catchnet area.*

3. Discussion

Te Rūnanga o Waihao, WWCCG, Zone Committee, DoC (if present) each share information such as what are each groups:

- aspirations
- main priorities
- challenges / help needed
- currently programme of work

How can we support/align with Rūnanga priorities?
Where are the synergies?

4. Sum up

- What we have learned
- Next steps/actions

5. Workshop Closure

- Thank attendees and hosts

Waihao Wainono Catchment

Waihao Wainono consists of Wainono Lagoon and the rivers and streams that flow into it.
