Are you giving feedback on behalf of an organisation?

No

Select your local city or district council:

Waimakariri District Council

Tell us how important each of these objectives is to you:

Maintenance	Important
Resilience	Very important
Emissions	Very important
Growth	Not very important
Safety	Important
Freight	Neutral

Target 1: 40% reduction in deaths and serious injuries on Canterbury roads by 2030

Support this target

Target 2: 41% reduction in greenhouse gas emissions from land transport in Canterbury by 2035

Support this target, noting this percentage reduction is aligned to the climate change

commissions demonstration pathway and should be considered a minimum and I would encourage more ambition for the emissions reduction target.

Target 3: 100% increase in tonnage of freight moved by rail in Canterbury by 2034

Support this target

Tell us how important each of these priorities is to you:

Create a well-maintained network	Important
---	-----------

Manage risk of exposure to extreme events	Important
--	-----------

Support and develop connected public and active transport networks	Very important
---	----------------

Implementing safer systems (Road to Zero)	Important
--	-----------

Support and develop freight systems connecting to air, rail and sea	Important
--	-----------

Do you support investigating alternative approaches to fund transport system improvements?

Yes

Are these the right measures of success?

Yes, these are the right measures.

Are there other monitoring indicators or measures of success that you think should be included?

I would suggest adding an indicator measuring mode shift and if this is increasing

Do you have any other comments that you would like to make on the draft Plan?

Mode shift is going to be important to help drive some of the changes needed.

Would you like to speak to your submission at a hearing in March?

No
