**Are you giving feedback on behalf of an organisation?**

No

---

**Select your local city or district council:**

Selwyn District Council

---

**Tell us how important each of these objectives is to you:**

Maintenance	Important
Resilience	Important
Emissions	Important
Growth	Very important
Safety	Important
Freight	Neutral

---

**If you think we should consider other objectives, please describe what they are and why they should be considered:**

Costs - public transport should be available to all public and should suggest discounts for those in need (students, seniors, disabled) or those who use it frequently instead of their private vehicles and support public transportation services (for example monthly, weekly and daily passes). Comfort - public transport should provide any advantage of usage itself instead of private vehicles. If public transport is late, takes triple time than a private car drive, and costs as a daily parking there is no any advantage if using it.

---

**Tell us how important each of these priorities is to you:**

Create a well-maintained network	Neutral
Manage risk of exposure to extreme events	Neutral
Support and develop connected public and active transport networks	Very important
Implementing safer systems (Road to Zero)	Neutral
Support and develop freight systems connecting to air, rail and sea	Important

---

**Do you support investigating alternative approaches to fund transport system improvements?**

Don't know

---

**What sources of funding do you think could be used to pay for regionally significant improvements:**

No Answer

---

**Are these the right measures of success?**

Don't know

---

**Do you have any other comments that you would like to make on the draft Plan?**

Providing better system for topping on the metro card will be great uproar to the current situation. If it going to be more available and less annoying for people they will use public transport more.
