Subject: Regional Land Transport Plan submission

Anonymous User just submitted the survey 'Draft Regional Land Transport Plan submission' with the responses below.

First name

Rob

Surname

Haughey

Email address

Are you giving feedback on behalf of an organisation?

No

Select your local city or district council:

Christchurch City Council

Tell us how important each of these objectives is to you:

Maintenance	Important
Resilience	Neutral
Emissions	Very important
Growth	Not important
Safety	Neutral
Freight	Neutral

Target 1: 40% reduction in deaths and serious injuries on Canterbury roads by 2030

Don't spend much on this. It will take care of itself

Target 2: 41% reduction in greenhouse gas emissions from land transport in Canterbury by 2035

I support this.

Target 3: 100% increase in tonnage of freight moved by rail in Canterbury by 2034

I support this.

Tell us how important each of these priorities is to you:

Create a well-maintained network	Important
Manage risk of exposure to extreme events	Neutral
Support and develop connected public and active transport networks	Very important
Implementing safer systems (Road to Zero)	Not important
Support and develop freight systems connecting to air, rail and sea	Not important

Do you support investigating alternative approaches to fund transport system improvements?

Yes

What sources of funding do you think could be used to pay for regionally significant improvements:

Tolls on major routes. Parking fee increase.

Are these the right measures of success?

No, these are not the right measures.

Are there other monitoring indicators or measures of success that you think should be included?

The measures need to be percentage of total. Eg for 'SUPPORT AND DEVELOP FREIGHT SYSTEMS CONNECTING TO AIR, RAIL AND SEA'. Not just 'increase'.

Would you like to speak to your submission at a hearing in March?

No
