Implementing safer systems (Road to Zero)	Very important

We have been doing engagements with youth, and there is a large theme around transport (and lack there of) in Selwyn. They are also not feeling safe (e.g. no/low lighting, limited paths). We would like to show our findings but are in the middle of collecting as it is part of our wider collection on youth strategy - is it possible to supply later (has hundreds of surveyed youth)

Do you support investigating alternative approaches to fund transport system improvements?

Don't know

Are these the right measures of success?
