**Subject:** Regional Land Transport Plan submission

Anonymous User just submitted the survey 'Draft Regional Land Transport Plan submission' with the responses below.

**First name**

Paul

---

**Surname**

Shelestovich

---

**Email address**

---

**Are you giving feedback on behalf of an organisation?**

No

---

**Select your local city or district council:**

Christchurch City Council

---

**Tell us how important each of these objectives is to you:**

|                    |                    |
|--------------------|--------------------|
| <b>Maintenance</b> | Not very important |
| <b>Resilience</b>  | Not very important |
| <b>Emissions</b>   | Very important     |
| <b>Growth</b>      | Very important     |
| <b>Safety</b>      | Not very important |
| <b>Freight</b>     | Not important      |

---

**If you think we should consider other objectives, please describe what they are and why they should be considered:**

Innovation and new technologies

---

**Target 1: 40% reduction in deaths and serious injuries on Canterbury roads by 2030**

That's too long timeframe - whoever working on it now, won't be responsible if they fail it after 2030. Reduce it 10% by the next year for example

---

**Target 2: 41% reduction in greenhouse gas emissions from land transport in Canterbury by 2035**

Why not 42%?

---

**Target 3: 100% increase in tonnage of freight moved by rail in Canterbury by 2034**

We need passenger rail back in Canterbury

---

**Tell us how important each of these priorities is to you:**

|   |                    |
|---|--------------------|
| Create a well-maintained network                                    | Neutral            |
| Manage risk of exposure to extreme events                           | Neutral            |
| Support and develop connected public and active transport networks  | Very important     |
| Implementing safer systems (Road to Zero)                           | Important          |
| Support and develop freight systems connecting to air, rail and sea | Not very important |

---

**Are there specific actions you think should be taken to help achieve these priorities?**

Light rail

---

**Do you support investigating alternative approaches to fund transport system improvements?**

Don't know

---

**Are these the right measures of success?**

Don't know

---

**Are there other monitoring indicators or measures of success that you think should be included?**

Recused number of cars and air quality

---

**Would you like to speak to your submission at a hearing in March?**

No

---
