Are you giving feedback on behalf of an organisation?

No

Select your local city or district council:

Waimakariri District Council

Tell us how important each of these objectives is to you:

Maintenance	Important
Resilience	Very important
Emissions	Important
Growth	Important
Safety	Very important
Freight	Important

Target 1: 40% reduction in deaths and serious injuries on Canterbury roads by 2030

Not sure how possible this is with the current government halting all work on speed reductions. This appears to be a serious problem for Road Safety

Tell us how important each of these priorities is to you:

Create a well-maintained network	Important
Manage risk of exposure to extreme events	Important
Support and develop connected public and active transport networks	Very important
Implementing safer systems (Road to Zero)	Very important
Support and develop freight systems connecting to air, rail and sea	Very important

Are there specific actions you think should be taken to help achieve these priorities?

We need to stick to the Road to Zero intentions

Do you support investigating alternative approaches to fund transport system improvements?

Yes

Are these the right measures of success?

Don't know

Would you like to speak to your submission at a hearing in March?

No
