Subject: Regional Land Transport Plan submission

Anonymous User just submitted the survey 'Draft Regional Land Transport Plan submission' with the responses below.

First name

David

Surname

Bately

Email address

Are you giving feedback on behalf of an organisation?

No

Select your local city or district council:

Christchurch City Council

Tell us how important each of these objectives is to you:

Maintenance	Very important
Resilience	Very important
Emissions	Important
Growth	Very important
Safety	Important
Freight	Very important

If you think we should consider other objectives, please describe what they are and why they should be considered:

Doing a better job of roading in the first instance has long term benefits. e.g 100mm of asphalt lasts longer and fewer pot holes. Cheaper to do the job well once than pouring money into temp repairs too often.

Tell us how important each of these priorities is to you:

Create a well-maintained network	Important
Manage risk of exposure to extreme events	Very important
Support and develop connected public and active transport networks	Important
Implementing safer systems (Road to Zero)	Neutral
Support and develop freight systems connecting to air, rail and sea	Important

Are there specific actions you think should be taken to help achieve these priorities?

Re road to zero, impossible target.

Do you support investigating alternative approaches to fund transport system improvements?

No

What sources of funding do you think could be used to pay for regionally significant improvements:

Increase vehicle licencing fee.

Are these the right measures of success?

Yes, these are the right measures.

Are there other monitoring indicators or measures of success that you think should be included?

A lower road toll is a good starting point

Do you have any other comments that you would like to make on the draft Plan?

No

Would you like to speak to your submission at a hearing in March?

No
