**Tell us how important each of these objectives is to you:**

Maintenance	Very important
Resilience	Neutral
Emissions	Neutral
Growth	Neutral
Safety	Very important
Freight	Important

---

**If you think we should consider other objectives, please describe what they are and why they should be considered:**

Speed and weight limitations

---

**Target 1: 40% reduction in deaths and serious injuries on Canterbury roads by 2030**

Targets are far too optimistic and risk wasting tax payer money on unachievable outcomes based on an untested model

---

**Target 2: 41% reduction in greenhouse gas emissions from land transport in Canterbury by 2035**

As above

---

**Target 3: 100% increase in tonnage of freight moved by rail in Canterbury by 2034**

Anything that reduces the amount of heavy vehicles on the roads and reduces emissions/pollution should be well funded in order to achieve expectations.

---

**Tell us how important each of these priorities is to you:**

Create a well-maintained network	Very important
Manage risk of exposure to extreme events	Very important
Support and develop connected public and active transport networks	Important
Implementing safer systems (Road to Zero)	Neutral
Support and develop freight systems connecting to air, rail and sea	Neutral
