Subject: Regional Land Transport Plan submission

Anonymous User just submitted the survey 'Draft Regional Land Transport Plan submission' with the responses below.

First name

William

Surname

Miller

Email address

Are you giving feedback on behalf of an organisation?

No

Select your local city or district council:

Christchurch City Council

Tell us how important each of these objectives is to you:

Maintenance	Important
Resilience	Important
Emissions	Important
Growth	Very important
Safety	Important
Freight	Not very important

Tell us how important each of these priorities is to you:

Create a well-maintained network	Important
Manage risk of exposure to extreme events	Important
Support and develop connected public and active transport networks	Very important
Implementing safer systems (Road to Zero)	Neutral
Support and develop freight systems connecting to air, rail and sea	Neutral

Do you support investigating alternative approaches to fund transport system improvements?

Yes

What sources of funding do you think could be used to pay for regionally significant improvements:

- users pays systems (ie tolls) for key roads - land value taxes to raise council revenue and encourage landowners to optimise the useful value of their land. These are also a useful way of ensuring that those landowners who benefit from publicly funded improvements pay their fair share - Public-private partnerships

Are these the right measures of success?

Yes, these are the right measures.

Do you have any other comments that you would like to make on the draft Plan?

- Funding for the CCC Major cycleway Routes (MCRs) should be a priority, given the stated priorities of emissions reductions, growth, and safety - it is not at all clear from this plan how the target of 41% reduction in GHG emissions will be achieved. In fact, it seems from some external modelling that this plan increases emissions. The plan should provide more details on how the reduction will be achieved

Would you like to speak to your submission at a hearing in March?

No
