Subject: Regional Land Transport Plan submission

Anonymous User just submitted the survey 'Draft Regional Land Transport Plan submission' with the responses below.

First name

Ian

Surname

McIntosh

Email address

Are you giving feedback on behalf of an organisation?

No

Select your local city or district council:

Selwyn District Council

Tell us how important each of these objectives is to you:

Maintenance	Very important
Resilience	Very important
Emissions	Not important
Growth	Very important
Safety	Very important
Freight	Not important

If you think we should consider other objectives, please describe what they are and why they should be considered:

No Answer

Target 2: 41% reduction in greenhouse gas emissions from land transport in Canterbury by 2035

You will destroy the local economy and have zero impact on climate change

Target 3: 100% increase in tonnage of freight moved by rail in Canterbury by 2034

Freight by rail is extremely inefficient on time and resources. It requires triple handling, initially from the source to the rail siding by truck, then by train, followed by truck from the railway siding to the customer.

Tell us how important each of these priorities is to you:

Create a well-maintained network	Very important
Manage risk of exposure to extreme events	Very important
Support and develop connected public and active transport networks	Very important
Implementing safer systems (Road to Zero)	Very important
Support and develop freight systems connecting to air, rail and sea	Very important

Are there specific actions you think should be taken to help achieve these priorities?

Remove any goals on emissions.

Do you support investigating alternative approaches to fund transport system improvements?

No

What sources of funding do you think could be used to pay for regionally significant improvements:

Funding that will pay for itself. There is no financial return on any policy that has climate change mitigation as a goal. In fact such policies have a huge negative impact as outlined in the Canterbury Climate Change Risk Screening (Interim Report), April 2020, page 33

Do you have any other comments that you would like to make on the draft Plan?

Remove any goals that include climate change mitigation (see attached brief attached file)

If you would like to add a file with your submission, please do so here.

Would you like to speak to your submission at a hearing in March?

Yes

Please provide a contact phone number so we can arrange a suitable time for you to speak at a hearing:
